

Product specification

Overview

- Point to multi point, 28 simultaneous connections
- 50-100KB data rate (depending on Bluetooth of mobile phone)
- Support various types of file transferring such as image, animation, text, audio, video, game, java app and so on.
- Support USB flash drive updating
- Support Ethernet,
- 10M/100M adaptive network
- LAN updating
- Fanless and noiseless
- Support Bluetooth security certification
- Support Bluetooth data encryption
- Embed LINUX OS
- 400M high performance processor
- Built-in 128MB flash memory
- 1A@12V
- Dimension: 16.5*12.3*3.9cm (exclusive of antenna)

Bluetooth Standard

- Bluetooth 2.0 + EDR (enhanced data rate)
- Bluetooth Class 1, up to 100meters
- 2.402G~2.480GHz Frequency
- Bluetooth stack
- LC, LM, L2CAP, SDP, RFCOMM, OBEX
- Bluetooth profiles
- Obex Push profile
- File Transport profile

Software Feature:

- Support dynamic IP
- Support batch sending
- Windows based desktop software
- Complete detailed Success/Failure statistics
- Control remotely using Internet Control Panel Software
- Support lottery sending
- Automatic Network Detection
- Control one or many Bluetooth Points
- Control days and hours to run campaigns
- Run with or without a network connection
- View Success/Failure data Live via Internet Control Panel
- Plug and Play technology
